

# Terminaux de Seine

## *Inland waterway terminals*

Operator of six container terminals in Île-de-France

**Subsidiary of PARIS TERMINAL SA - TDS LOGISTIQUE - CFT - TERMINAUX DE NORMANDIE**

- Operator of container terminals in Île-de-France
- Total surface 90,000 sq m
- Storage capacity 20,000 TEU on 4 levels

TERMINAUX DE SEINE operates 6 terminals in Île-de-France and Oise : Bonneuil sur Marne, Bruyères sur Oise, Evry, Limay, Longueil Sainte Marie and Paris La Bourdonnais.

TERMINAUX DE SEINE is a stevedore. Our clients are barge operators, shipping companies, carriers and forwarding agents.

TERMINAUX DE SEINE uses sea-river shipping procedures and its platforms serve as temporary storage facilities. This allows early customs clearance and a cash advance for the payment of customs duties.

### Cloud Containing

The concept of «Cloud Containing» is to create a «single warehouse» in Île-de-France by regrouping 5 platforms and PARIS TERMINAL SA platform (Gennevilliers), representing a storage capacity of 300,000 sq m or 60,000 TEU.

### Trades

- Stevedoring
- Tracking of containers
- Container preparation
- Storage of containers and dry bulk

**6** terminaux  
in Île-de-France with a  
total surface of  
**90,000 sqm**
